

CAUSE NO. 22-00105

CSD VAN ZANDT LLC

Plaintiff

v.

UDO BIRNBAUM

Defendant

\$ IN THE DISTRICT COURT

\$ 294TH JUDICIAL DISTRICT

\$ VAN ZANDT COUNTY, TX

Motion in re Bonhoeffer's Theory of Stupidity

This Motion as a warning to any and all of us: “finger finger on the wall”.

DIETRICH BONHOEFFER is of course the young Lutheran theologian who alone among church leaders spoke out against the election of Adolf Hitler in 1933 and who was ultimately hanged at Flossenberg concentration camp just two weeks before liberation by the Americans.

And while in prison he searched for how it had been possible to subvert a civilized society into electing a madman as their hero – and downhill from there – leading to the total destruction of any and all and everything.

It is known as Bonhoeffer's Theory of Stupidity, that stupidity - in the “social context” of choosing not to be inquisitive – not stupidity as a biological defect, but as a moral one – is far more dangerous than malice, for one can at least converse even against malice, i.e. point out the consequences to the malevolent ones, but that we are absolutely helpless against “social stupidity” - that the “socially stupid” are absolutely blind to the consequences, and will stupidly go even on physical attack against anyone not exactly matching their own stupidity, oblivious to even their own doing evil - blinded by their self acquired stupidity.

There is none so blind as those who will not see – but far more dangerous is he who has let himself and others get caught into “social stupidity”.

Has this Court not noticed the continuously increasing numbers of criminals with “social stupidity” type of affliction coming before it?

Has this Court not noticed the disappearance of intelligent participants in attendance to watch court proceedings – and instead the appearance of bullet

proof glass at the clerk's office and tiny window slots behind the new one-way mirror at our District Attorney? Or the empty lobby at our Justice Center?

Or the barricading of all but one courthouse entrance – and no longer by only a single officer - but by a self protecting duo?

Has this Court not noticed everybody outside - attributing malice, evil, and greed – to everyone inside?

And everybody of the courthouse – certainly deriving no benefit - from such self created hell. The cause therefore has to be stupidity – communal social stupidity - by those on the “inside”. No other explanation makes sense.

Retrospect

And, coming back to Bonhoeffer and Hitler, this Defendant was a normal 8 year old German kid at the end of World War II in 1945, and came to America as a 13 year old speaking hardly any English, but as one having survived even Hitler, mainly by us hand cutting grass off the sides of the road and feeding it into our rabbits.

Also, the middle school I went to is now named after Dietrich Bonhoeffer, as are hundreds of other schools all over Germany, and the name Adolf gone extinct.

And the once German affliction of social stupidity passed to Putin, and America prepping to become the next reincarnation, karma, hell on earth, or worse.

Prayer

As you sow so ye shall reap. Lawyers, as evil as I have sadly come to believe they mostly are, would not intelligently create their own hell, it has to be stupidity.

And despite Bonhoeffer's warning, that any attempt to try reason against any such social stupidity, that they will attack, as was indeed done against me by those \$62,885 and \$125,770 Court fine “sanctions”, I pray that this court, now under new management, will see its errors and the folly of not protecting me, others like me, and its own institution, and avoid absolute and total destruction of all of us.

As you sow so ye shall reap. Infection of the Courts is infection of our social immune system, much like AIDS is infection of the defenses of the body and deadly.

This court, the sheriff, the district attorney, and everyone up the line to the US Supreme Court, not once but twice, have refused to protect me, starting with that beaver dam scheme suit against me in 1994, and downhill ever since. Before that I was peaceably retired on my farm, tending to my cows and invalid 90 year old mother, and had only known the courthouse from getting licensed plates, and look at me now.

This now suit against me is not at all a dispute over existing title, for they have no chain of title whatsoever, but a scheme to steal themselves one by duping this court, into handing them my head on a platter, as they tried with their **Plaintiff's** Motion for Summary Judgment of Nov. 14, 2022 by "Hearing by Submission".
