

A pattern of first degree felony textbook penal 31.03 - “theft by gavel”

\$62,885, \$125,770 obscenely arbitrary and unlawful court fines - and forging such **FINES** into more “judgment-like” – by sneaking in “this **judgment** rendered” - just above the signature – **to dupe the district clerk** to issue abstracts of judgment - and filing such abstracts with the county clerk - **to create liens** - and “bring about” the unlawful “appropriation of property”

To: District Judge, District Attorney, Sheriff, District Clerk, Court at Law, County Clerk

31.03. THEFT. (a) A person commits an offense if he unlawfully appropriates property with intent to deprive the owner of property.

31.01 (4) "Appropriate" means: (A) to bring about a transfer or purported transfer of title to or other nonpossessory interest in property, whether to the actor or another; or

THEFT NO. 1

Upon Motion for Sanctions – for me supposedly having made - “*a mockery of all lawyers and the entire judicial system*” - visiting judge Paul Banner, at a hearing on such motion - punished me \$62,885 – plus 10% interest – for being “***may have been well-intentioned***” - but my evidence not sufficiently “***that suggest***” to him – was of course a jury case – and judge Banner telling opposing side to reduce such “finding” by him – into an ORDER – i.e. a piece of paper for him to sign.

And in such piece of paper – titled Order on Motion for Sanctions – opposing scoundrels of course included no such nonsensical pretense – and no reason whatsoever as “good cause” - for having imposed such \$62,885 sanction - as required per Rule 13, but stealthily inserting the phrase “This JUDGMENT rendered” – just above the signature - forging this mere ORDER - into being more “judgment-like”.

And these scoundrels therewith did indeed dupe the district clerk into producing abstract of judgment, then filing such with the county clerk to put liens against my property – to “unlawfully appropriate” – i.e. steal - a “nonpossessory interest” in my property – all upon a mere – and obscenely unlawful - mere order – clearly NOT a judgment – nothing was adjudicated – indeed was unlawful **unconditional** punishment – unlawful by civil process.

(NOTE: civil “punishment” is constrained to “coercive”, requires “keys to own release”, to be able to “purge” such contempt – by comply with an Order. **Unconditional** sanction requires full criminal process – of “beyond a reasonable doubt” – by a jury)

And for evidence of “*mens rea*” – evil mind and intent, criminal motive – I present the one year later Findings of Fact and Conclusions of law – where they try to hide their crimes - by painting such punishment – as having been a **bench trial** – just read their “stuff” – where they paint me as up there right next to the devil - and compare all that crap – to the original and extemporaneous - “well-intentioned”.

Also note the TWELVE years later – REVIVAL – by writ of scire facias to revive judgment – of such \$62,885 Order on Motion for Sanctions – into more “judgment-sounding” - “sanction judgment” – by this time including the 10% interest – climbing into the stratosphere – the perpetrators ever after still holding tightly onto their stolen fruit – watching it grow at 10% .

THEFT NO. 2

Upon yet another Motion for Sanctions - TWO (2) years down the line – same song, second verse – additional \$125,770 sanction – exactly twice the earlier \$62,885 – reads like the ravings of a madman – by visiting judge Ron Chapman – who did not hear an iota of the case – cannot sign any judgment - under any circumstances – certainly not yet another judgment – this is the THIRD “judgment” – there can of course only be ONE judgment.

Same “this JUDGMENT rendered”, dupe the district clerk, same abstract of judgment crap, writ of execution to send sheriff with a gun, and of course again “unlawful appropriation of property. etc.”

THEFT NO. 3

“revival of theft no. 1”

And at a hearing to revive judgment – of the \$62,885 Order on Motion for Sanctions - by writ of scire facias to revive judgment – TWELVE years down the pike – the amount, with the 10% interest reaching into the stratosphere, the perpetrators **re-executed** same again, abstract, writ, “nonpossessary”, etc.

Full AUDIO of this hearing on my DamnCourthouseCriminals.com, as are ALL the documents referred to, and lots, lots, lots more – including the fraudulent BEAVER DAM case that ensnared me in this frapping court in the first place – and that unconscionable Westfall legal fee suit – claiming an unpaid open account. No such account ever. Matter of account never submitted to the jury. ALL FRAUD.

THEFT NO. 4

“accomplices after the fact – or just useful idiots”

And again and again I informed the district clerk that there cannot be THREE judgments in the same case – that these are mere ORDERS – obscenely unlawful at that – to be told - that she was told - that if it had a “dollar amount” in it – then it was a judgment – and me informing her that only a “judgment creditor” – i.e. upon

actual adjudication - is entitled to “the aid of the court” – and that these were NOT judgments – for they did NOT “adjudicate” – certainly NOT by jury - for me to see only a blank expression on her face. Enough said for now.
